KNIGHT KNOX DEVELOPMENT CORP.
Notes to the Interim Financial Statements
For the Nine Months Ended May 31, 2016
(Unaudited)

NOTE 1 – ORGANIZATION AND DESCRIPTION OF BUSINESS

KNIGHT KNOX DEVELOPMENT CORP. (the "Company") is a Nevada corporation incorporated on May 2, 2011. It is based in London, England. The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America, and the Company's fiscal year end is August 31.

The Company intends to develop and operate an auction site where businesses and the general public can post their products and services for sale. To date, the Company's activities have been limited to its formation and the raising of equity capital.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Company prepares its financial statements in accordance with rules and regulations of the Securities and Exchange Commission ("SEC") and accounting principles generally accepted ("GAAP") in the United States of America. The accompanying interim financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information in accordance with Article 8 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the Company's opinion, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the nine months ended May 31, 2016 are not necessarily indicative of the results for the full years. While management of the Company believes that the disclosures presented herein are adequate and not misleading, these interim financial statements should be read in conjunction with the audited financial statements and the footnotes thereto for the year ended August 31, 2015 contained in the Company's Form 10-K filed on December 11, 2015.

NOTE 3 – GOING CONCERN

The Company's financial statements are prepared using accounting principles generally accepted in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not established an ongoing source of revenues sufficient to cover its operating cost, and requires additional capital to commence its operating plan. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. If the Company is unable to obtain adequate capital, it could be forced to cease operations. These factors raise substantial doubt about its ability to continue as a going concern.

In order to continue as a going concern, the Company will need, among other things, additional capital resources. Management's plan to obtain such resources for the Company include: sales of equity instruments; traditional financing, such as loans; and obtaining capital from management and significant stockholders sufficient to meet its minimal operating expenses. However, management cannot provide any assurance that the Company will be successful in accomplishing any of its plans.

There is no assurance that the Company will be able to obtain sufficient additional funds when needed or that such funds, if available, will be obtainable on terms satisfactory to the Company. In addition, profitability will ultimately depend upon the level of revenues received from business operations. However, there is no assurance that the Company will attain profitability. The accompanying financial statements do not include any adjustments that

might be necessary if the Company is unable to continue as a going concern.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the realization of assets and the liquidation of liabilities in the normal course of business. During the nine months ended May 31, 2016, the Company has a net loss from operations of \$25,359. As at May 31, 2016, the Company had an accumulated deficit of \$55,869 and has earned no revenues. The Company intends to fund operations through equity financing arrangements, which may be insufficient to fund its capital expenditures, working capital and other cash requirements for the year ending August 31, 2016.

NOTE 4 – EQUITY

Authorized Stock

The Company has authorized 75,000,000 common shares with a par value of \$0.001 per share. Each common share entitles the holder to one vote, in person or proxy, on any matter on which action of the stockholders of the corporation is sought.

Common Shares

During the nine months ended May 31, 2016, \$600 subscription receivable was collected.

Preferred shares

No preferred shares have been authorized or issued.

Stock Options and Warrants

The Company has no stock option plan, warrants or other dilutive securities.

NOTE 5 – RELATED PARTY TRANSACTIONS

During the nine months ended May 31, 2016, the Company borrowed \$4,450 from a majority shareholder; the amount borrowed is non-interest bearing and due on-demand loan. The balance at May 31, 2016 is \$4,450.

The Company does not own or lease property or lease office space. The office space used by the Company was arranged by the founder of the Company to use at no charge.

The Company does not have employment contracts with its key employees, including the controlling shareholder who is an officer of the Company.

The amounts and terms of the above transactions may not necessarily be indicative of the amounts and terms that would have been incurred had comparable transactions been entered into with independent third parties.

The cash used from operating activities was primarily attributed to professional fees related to the S-1 registration and ongoing regulatory requirements.

Cash Flow from Investing Activities

The company did not use any funds for investing activities in the nine months ended May 31, 2016 and 2015.

Cash Flow from Financing Activities

During the nine months ended May 31, 2016, the company received \$600 from subscription receivable and received \$4,450 non-interest bearing on-demand loan from the shareholder. During the nine months ended May 31, 2015, the company received \$8,500 in cash from un-affiliated investors for subscription of 850,000 shares of the Company's common stock.

Going Concern

Our auditors issued a going concern opinion on our financial statements as of and for the period ended August 31, 2015. This means that there is substantial doubt that we can continue as an on-going business for the next twelve months unless we obtain additional capital to pay for our expenses. This is because we have not generated sufficient revenues to cover operating costs or raised enough funds. There is no assurance we will ever reach this point. Accordingly, we must raise sufficient capital from sources. We must raise cash to stay in business. In response to these problems, management intends to raise additional funds through public or private placement offerings. At this time, however, the Company does not have plans or intentions to raise additional funds by way of the sale of additional securities, other than pursuant to our current Offering.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures, or capital resources that is material to investors.

Critical Accounting Policies and Estimates

We prepare our financial statements in conformity with GAAP, which requires management to make certain estimates and apply judgments. We base our estimates and judgments on historical experience, current trends and other factors that management believes to be important at the time the financial statements are prepared. On a regular basis, we review our accounting policies and how they are applied and disclosed in our financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

As a "smaller reporting company", we are not required to provide the information required by this item.

Item 4. Control and Procedures.

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures as defined in Rule 13a-15(e) under the Exchange Act as of the end of the period covered by this Quarterly Report on Form 10-Q. In designing and evaluating the disclosure controls and procedures, our management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints, and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs. The design of any disclosure controls and procedures also is based in part upon certain assumptions about the likelihood of future events and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Based on that evaluation, our chief executive officer and chief financial officer concluded that, as of May 31, 2016, due to our limited number of officers and members of the Board of Directors, our disclosure controls and procedures were not effective to provide reasonable assurance that information we are required to disclose in reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules, regulations and forms, and (ii) that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Controls Over Financial Reporting

There were no changes in the Company's internal controls over financial reporting that occurred during the period covered by this Report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION
